## **DETAILED ACTION**

### ***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance: The prior art fails to disclose an OLED display system and method thereof having, inter alia, a display driver for receiving a color display signal representing a relative luminance and color to be produced for each pixel of the display and generating a converted color display signal for driving the OLEDs in the display to produce in-gamut colors using a combination of light from the in-gamut OLED and light from the gamut defining OLEDs in accordance with an in-gamut mixing ratio, and is responsive to the control signal for controlling the in-gamut mixing ratio of the OLEDs to reduce power consumption or increase lifetime of at least one of the OLEDs (claims 1 and 11), wherein the display driver limits the in-gamut ratio of the OLED display within a range having some minimum and/or maximum value (claim 17). The remaining claims 2-10 and 12-16 are allowed by virtue of their dependencies from the independent claims. Hence, the examiner has allowed claims 1 through 17.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
